## Seen & Heard Around MURRAY

A stranger in town might think that Sergeant James Brown is the roughest policeman he ever saw if he happened by as Sergeant Brown is jawing at some body for not putting money in a parking meter.

However Sergeant Brown has a way of making the feeding of meters as enjoyable as this duty will allow. Folks up and down the street enjoy the remarks and repartee of Sergeant Brown and the folks he is "bawling out".

By the way members of the Murray Civic Music Association should clip out the chronological schedule in yesterday's Ledger and Times of the concert in the four cities where they can attend. It will save a lot of wondering as to what is going on where.

## Suit To Halt Impoundment Is Dismissed

PADUCAH, Ky. (UPI) — Federal Judge Henry Brooks today dismissed a suit that would have halted the filling of the Barkley Dam impoundment.

The suit was filed against the U.S. Army Corps of Engineers by Hal and Myrna Gray and their sister, Katherine Gray Tripp, who contended they still owned the mineral rights on four tracts of land. Lyon County lawyer James Story, Paducah, who is their attorney, claimed the government ignored the question of mineral rights when it went into condemnation proceedings.

However, in a hearing that lasted a little over three minutes, Brooks said the U.S. government could not be sued without its consent.

The filling of the impoundment on the Cumberland River, which is expected to reach 343 feet by next week, is to start Friday. It will cover over 100,000 acres.

## Education Society Holds First Meeting

Delta Omega, chapter of Kappa Delta Pi, honorary education society, held its first program meeting of the year in the Elementary Laboratory of the Murray State College Educational Building.

The business meeting was conducted by the president, Miss Jennifer Seigler.

The program consisted of a talk by James L. Johnson, executive secretary of the Murray Chamber of Commerce, who spoke to the group of Nathan B. Stubbelfield, inventor of the radio.

Johnson has spent the past six years collecting the personal papers of Nathan B. Stubbelfield.

Johnson presented to the Kappa Delta Pi group his evidence, which proved that Stubbelfield did invent the radio and shared with them many of the papers which substantiated the fact.

His speech was much appreciated by the large group that attended. The next meeting of the Delta Omega Chapter will be held Nov. 16.

## FIRE SEASON IS HERE

AN UNWELCOME DAY rolled around yesterday as State Forester Wade Roberts reported that the forest fire season officially got underway on Wednesday.

As if to underscore the announcement approximately fifteen acres of field land was burned over in the Clark's River bottom about five miles north of Murray.

The forest fire season means a lot to the people of Murray and Calloway County because Calloway County stands high in the area of tree planting. We have more to lose today than we did twenty years ago.

Literally hundreds of acres have been planted in loblolly pine, locust, and other types of trees in conservation efforts. At the same time the planting of these thousands of trees forms the basis for a new industry in the county, tree harvesting.

Nothing is more disastrous to tree planters than a forest fire. Literally years of work can go up in smoke if a fire gets out of control and burns into a planting of pine trees.

Citizens of Murray and Calloway County can help this situation in a realistic way by using extreme care in burning trash, especially out in the country. Lighted cigarettes should not be thrown out the window of a moving car. Many fires are started in this manner, just through carelessness.

Camp fires should be completely extinguished. Any type of trash burning should be done after 4:30 p.m., and then only if proper measures are taken to prevent the spread of fire.

The preventing of forest fires means a lot to the people of Calloway County today and it will take the efforts of every man, woman and child to hold fires to a minimum.

## Quotes From The News

NEW YORK — Conservative party mayor candidate William F. Buckley, Jr., on his proposal that bicycles be used to solve New York City's traffic problems:

"I suppose it is ultra-reactionary to advocate going back to the bike."

NEW YORK — Strip teaser Mary Rooney, who had \$20 stolen from her dressing room while performing for 300 policemen at a retirement dinner for a sergeant:

"You'd think that a working girl would be safe with all those cops around."

PLET ME, South Viet Nam — U.S. Army Special Forces Maj. Charles A. Beckwith of Atlanta, Ga., on the fighting capabilities of the Viet Cong:

"I wish we could get 200 of those Viet Cong recruited on our side. They are some of the finest soldiers I have ever seen — except Americans, of course. And if those V.C. are underfed, sick and have a low morale, I'd sure hate to fight them when they're well."

## Lakers To Play In Jamboree First Time

By GALE GARRISON

The Calloway County Lakers will play in the Heath Jamboree this year, for the first time, Friday night, before opening up their regular season November 6.

The Jamboree is sponsored each year by Heath, with some of the better teams getting invited. Each team plays another for a quarter, with the team scoring the most points being declared the winner.

Calloway will play the second quarter against Reidland, host team.

Heath plays Carlisle in the first round, Lone Oak drew St. Mary's in the third quarter, with Ballard and Sedalla rounding out the night.

The first two teams square off at 6:45, Murray time, with Calloway taking the floor about 7:30.

In regular season play Calloway will play 22 games, 10 at home and 12 on the road. Listed below is their 1965-66 schedule.

# WHAT'S GOING ON

**HERE**  
The Federal State Crop and Livestock Reporting Service has released its report on the 1965 strawberry crop in Kentucky. According to this report, farmers realized a good year, with the yield per acre being one of the highest on record.

This year's yield was 3,200 pounds per acre, with the total production showing a six percent increase over 1964. The report shows 300 acres being harvested this year.

The Reporting Service also shows that an estimated 1,400 acres are expected to be grown in 1966, with new plantings to account for 48 percent of the increase in acreage.

Harvesting of this year's crop progressed rapidly, the Service says, which was in favor of the growers. The major harvest was completed a week earlier than last year.

The Reporting Service also shows Kentucky with another good year in honey production. However, the total production was down slightly from last year. Figures show this year's yield as being 2,254,000 as compared to 2,550,000 pounds in 1964. Fewer colonies and lower yield per colony caused the decline.

Even with the lower production this year, there is still a good supply of Kentucky honey, as the stock from last year makes the total supply five percent above this time a year ago.

Our State's beekeepers are doing a good job, and while honey isn't one of our major commodities, it still adds a considerable amount to our total income. There is a good market for Kentucky honey, and with expanded promotion and sales programs, the total industry should enjoy a bright future.

I wish to commend our Kentucky Tobacco Princess, Miss Nyea Jo Rount, Hodgenville, for her participation in the National Tobacco Festival at Richmond, Va. She represented Kentucky in a fine fashion and made a lovely goodwill ambassador for the burley tobacco capital.

Princess Nyea will be appearing at a number of events throughout the coming months to hail Kentucky's number one agricultural cash crop.

And speaking of tobacco, Kentucky's 1965 crop is expected to produce 411.8 million pounds. This is one percent below the estimate released last month, but it is slightly above the 1964 yield.

Kentucky burley growers are expected to have a statewide average of about 2250 pounds per acre this year. This 225 pounds above the average last year. Average for the eight-state burley belt is estimated at 2204 pounds per acre.

Poor curing conditions during September, in addition to the dry weather in August, hurt this year's yield. Too many farmers suffered damage from the frequent rains during the September cutting season.

Many farmers are starting corn harvest, with a record crop expected. Yield per acre is estimated to be 69 bushels.

## X-15 Flown 3,477 mph; 45 Miles High

**EDWARDS AIR FORCE BASE, Calif.** (AP) — The X15 was flown to an altitude of almost 45 miles Wednesday by test pilot John McKay to measure noise and potential stress hazards on future space vehicles.

The No. 3 X15 carried five special microphones to record noise intensity on the boundary layer of air flowing around the surface of

the plane.  
A horizon banner mounted on the rear of the fuselage also was used to "closely define" the earth's horizon as the X15 reached a height of 237,000 feet and a speed of 3,477 miles an hour or mach 4.7.

Dear Abby . . .

## Seek Help--Now!

Abigail Van Buren

**DEAR ABBY:** I am sure you have never received a problem like this in your entire career. I am a 24-year-old divorcee, and the mother of two children, ages 5 and 3. I live alone, support myself and up until I met this young man I have lived a very respectable life. The young man I am in love with is 16 years old. He is a nice person and lives at home with his family, who know nothing of this. I am well aware that this is completely wrong, and I make no apologies for it, but I can't help myself. I love him. I suppose you are wondering how a 24-year-old woman in her right mind could be in love with a 16-year-old kid. Believe me, I am sane and am not a tramp.

The problem is that I think I am expecting his child. I don't want to hurt this boy in any way, Abby. I would like before I would reveal his name. He is much too young to marry, but if I am pregnant, I want to keep the baby in hopes of marrying him later. If this is found out, could I be put in jail and my children taken from me? I would go to a lawyer but I am afraid he might press charges. Help me?

**"LOOKS LIKE IT"**

**DEAR LOOKS:** GO TO A LAWYER. He will protect you and advise you of your rights and obligations. Confide in him and have no fear.

**DEAR ABBY:** I have not been able to find a satisfactory answer to something that has bothered me for a long time. Maybe you can

son on how to draw five different methods by Mrs. Gene S. Gaurin at the club house at 9:30 a.m.

**Tuesday, November 2**

friends deserve a gratuity for extra service. (It's not expected, but usually appreciated.) If there is a NO TIPPING sign, don't attempt to violate it.

**DEAR ABBY:** Concerning the southpaw problem: Can you tell me if Vladimir Horowitz, Artur Schnabel, or Leonard Pennario are ambidextrous? Also, can you tell me if Jascha Heifetz, Yehudi Menuhin and Gregor Piatigorsky are left-handed?

If those hard-working people can accomplish such miracles with both hands with equal ease, can't those natural-born lefties master the simple art of writing with their right hands without developing an assortment of emotional problems?

**CURIOUS IN INGLEWOOD**

**DEAR CURIOUS:** We would all probably amaze ourselves with the "talents" we could develop if we had to. When one loses a right hand, he can learn to write with his left. If both hands are gone, even the feet can substitute. But few learn Braille until they're sightless.

**CONFIDENTIAL TO "TUEZED IN ATHENS":** It is said that "Diogenes struck the father when the son swore." Does that answer your question?

**Troubled? Write to ABBY,** Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 69700, Los Angeles, Calif.

## PERSONALS

**SWEET**

New York City — Non-calorie non-nutritive sweetener now is available in miniature cubes. The cubes, based on calcium cyclamate, come in a small clear glass container shaped like a sugar bowl with a plastic lid from which a label is easily removed. Each contains 84 cubes, equal in sweetening power to as many teaspoons of sugar.

**SPICY**

NEW YORK CITY — A new spicy sweet salad dressing suitable as a taste for barbecued foods is homogenized and pre-blended. You pour it without first shaking the bottle. It also is suitable for fruit salads, molded salads and another that calls for a sweet dressing.

NO FOOTBALL

CAMBRIDGE, Mass. (AP) — What appeared to be an extra edition of the Harvard University "Crimson" presented waking students with the unhappy news that the school was discontinuing football.

But the whole thing turned out to be a hoax perpetrated by the staff of the "Crimson," the campus newspaper of Harvard's rival Ivy League school. It seems they were avenging a hoax edition of their paper which Harvard students put out 19 years ago.

need of help on their Card-O-Rama program.

Folks are not supporting it the way they anticipated.

In a nut shell, here is what they plan to do with the money they make from the project. Women's Clubs all over the state are going in together to build a rehabilitation center for girls in trouble.

There are two such centers in the state for boys but absolutely none for girls.

The Kentucky Federation of Women's Clubs have this rehabilitation center as a primary project. It will cost \$105,000. Governor Breathitt has pledged \$25,000 to it. The ladies have raised over \$16,000 thus far.

Murray women pledged \$1,000 and the Card-O-Rama project here is their means of raising the money.

All we do is fill out the form in today's Ledger and Times, enclose \$5.00 and you are in. Mrs. Gowans or any club member can fill you in on how to win some of the prizes they offer.

The Card-O-Rama is a natural for folks who play bridge a lot. The prizes are good prizes too.

Most of all your five dollars will aid the Murray Women's Club in attaining their goal of \$1,000 which will go toward the girls' rehabilitation center.

The only thing more heart breaking than a boy in trouble, is a girl in trouble and for a state to have little or no facility for this type of social difficulty, is nothing short of disgraceful. The Women's Clubs of the state are trying to correct the situation, and you can help.

If you can't think of anyone to call, call Mrs. William Caldwell.

## FOREST FIRE ...

her tower also and any woods or forest fire may be reported at phone 783-5701.

Fire fighting equipment in Calloway County consists of a truck driven by Forester Wade Roberts which carries a sixty gallon water tank which can be used under pressure. The other is a truck driven by Robert Outland, Fire Crew Leader. Mr. Outland also drives the fire-trailer which is pulled by the truck on a low-boy.

This tractor pulls a plow which waters dirt over a six foot wide area in fire fighting efforts.

Mr. Roberts reminded Calloway Countymen also that the 4-30 burning law is in effect. This law calls for no burning of trash, etc. until 4-30 in the afternoon, and not even then unless measures are taken to prevent the spread of fire.

The reason for this law, Roberts said, is that the wind usually drops in the afternoon about 4-30 and the moisture begins to rise from the ground at this time which tends to spread the fire.

We asked for the conservation of all citizens to hold fire losses to a minimum. Any fire in the open should be tended at all times, he continued. Calloway County has a tree planting program which is second to none in the state and a woods or forest fire could be disastrous to several to many persons who have planted several thousands trees in conservation efforts.

A fire occurred yesterday five miles north of Murray in the Clarke River bottom on land owned by Boyce McClard and Kirby Bucy. The fire burned eighteen to twenty acres of grassland. This fire was extinguished with little damage being reported.

The two ladies who man the two Fire Towers in the county use sighting devices in order to determine the location of a fire. Sighting from other fire towers aid in pinpointing the location.

With continuing frosts and freezes providing more "tinder" for

will bring this total to \$95,385,000. Bond funds of \$1,476,000 matched with Federal and other money, would provide Murray State College a total of \$655,000 to carry out its projected construction program.

\* Health — For some \$3,500,000 in bond issue money a total of \$10,600,000 will be available to Kentucky for building local health and mental health centers, care of mentally retarded children and Tuberculosis Hospital construction.

\* Agriculture — Of social interest to the farmer and local businessman is \$2,100,000 earmarked for a statewide animal disease diagnostic laboratory and livestock sales pavilion; a continuing program to improve water for agricultural, industrial, municipal and recreational uses and new fire watch towers and forestry buildings. The latter will provide an even better forestry program, benefiting the timber and owner by making more effective safeguards against tree damage from fire and disease.

\* Parks and Airports — For some \$4,500,000 in bond issue money there will be available \$9,000,000 for development of at least two new parks and general improvements to existing facilities in all parks. Airports, increasingly important for industry-minded communities, will be allotted \$605,000 which together with available Federal and local funds, will give Kentucky a construction program of \$2,965,000. A building program of \$1,262,500 is planned for Kentucky State Park with Federal and bond issue money. These major projects would be included: 15 new cottages, a new community-size swimming pool near the beach area, and finishing the Kentucky Lodge, renovation and expanding the building. Airport improvement in Calloway County would be possible with bond issue funds.

\* Corrections and State Police — forests fires, it is more important than ever to use great caution with fire out of doors. Wade concluded.

The need to modernize correctional facilities, both from a humane and economic viewpoint is met with some \$2,900,000 allotted from the bond issue. State Police now operate from rented or leased barracks in some localities. To replace rented quarters, the bond issue has building

\* Child Welfare — To relieve the overcrowded conditions at Lexington Reception Center for delinquent and dependent children, the bond issue provides \$450,000 for renovation and two diagnostic and evaluation centers elsewhere.

\* Approval of the bond issue, Breathitt said, "means we can make these improvements now rather than waiting till the costs go up."

"For example, across the nation highway construction costs have risen about 25 per cent in the past 10 years."

"By selling these bonds and making the needed improvements now, the present generation can benefit without the imposition of new taxes."

## SUPER SPORT 396

New Chevelle SS 396 Sport Coupe—  
with clean-sculpted all-new Body by Fisher.

by Chevrolet

Two new Super Sport beauties for '66—a hardtop and convertible—propelled by nothing less than the new Turbo-Jet 396 V8.

This remarkably efficient power plant, with aircraft-type valves, deep-breathing ports and other design advances, develops 325 hp in the standard version. And you're welcome to order more—in a 360-hp version—if you're so inclined.

Both Chevelle SS 396 models ride on a special flat-cornering chassis. A fully synchronized 3-speed transmission with floor-mounted stick shift is standard. Or you can order a 4-speed or Powerglide—also Strato-bucket front seats, center console and full SS instrumentation.

Your Chevrolet dealer's is the place to see how all this feels from behind the wheel. He's a great believer in letting the customers handle the merchandise.
